Wide Standard Quad-Pol (25 m)				

RADARSAT-2 Programming Services : \$USD	Price per Scene
<p><b>Non Time Critical (NTC)</b> This service is based on a best-effort basis. Your order is finalized at least 3 days prior to *Satellite Tasking. In the event of a programming conflict, priority will be given to orders placed with TC, GTC or Emergency programming services.</p>	Contact Staff
<p><b>Time Critical (TC)</b> This service is suitable for time-sensitive applications such as marine or crop monitoring, and allows you to reserve a particular timeframe. Your order is finalized least 3 days prior to *Satellite Tasking. In the event of a programming conflict, priority will be given to orders placed with GTC and Emergency programming services.</p>	Contact Staff
<p><b>Guaranteed Time Critical (GTC)</b> This service is suitable for very time-sensitive applications and allows you to reserve your acquisition dates. Your order is finalized at least 3 days prior to *Satellite Tasking. GTC orders take precedence over TC and NTC orders.</p>	Contact Staff
<p><b>Late Programming:</b> This service allows the user to place an order between 72 and 12 hours prior to *Satellite Tasking. Data is acquired on a best effort basis. Orders are accepted only if there is no conflict with a previously placed order.</p>	Contact Staff
<p><b>Emergency Programming:</b> Qualifying emergency orders are collected on the first available satellite pass and take precedence over all other orders. Emergency programming orders can be accepted 4 to 12 hours prior to *Satellite Tasking.</p>	Contact Staff
<p>Note:</p> <ul style="list-style-type: none"> <li>▪ <b>*Satellite Tasking</b> refers to start of the Command Execution Period when the satellite begins to execute/initiate imaging commands.</li> </ul>
