

THAICHOTE For International Pricelist

GISTDA

Promotion Pricelist for International Users
Effective date: 1st January 2017 until 31st December 2018

THAICHOTE is the first operational Earth Observation Satellite of Thailand. To satisfy users in almost all applications, Thaichote is equipped with a 2 m. resolution panchromatic telescope with 22 km. swath width and a 15 m. resolution multispectral camera with a 90 km. wide viewing.

THAICHOTE Standard Products

Level 1A	The image data is provided with radiometric correction of non-uniformities of the detectors of the imaging system. This product is intended for users who will perform their own geometric correction processing
Level 2A	In addition to radiometric correction, this product has geometric correction of systematic effects (panoramic effect, Earth curvature and rotation). Internal distortions of the image are corrected for the imagery to be useful in measuring distances, angles, and surface areas. The imagery is projected to a standard cartographic projection (UTM WGS84 by default) using a terrain model but without ground control points

Pricing

	Panchromatic (22x22 km)	Multispectral (90x90 km)	Pan-sharpening (22x22 km)	Bundle (PAN + MS)
Archive	US\$ 425	US\$ 425	US\$ 555	US\$ 640
Standard Tasking	US\$ 575	US\$ 575	US\$ 750	US\$ 865
Priority Tasking	US\$ 1,150	US\$ 1,150	-	US\$ 1,725
Urgent Tasking	US\$ 1,440	US\$ 1,440	-	US\$ 2,160

Licensing

Standard License	1 user	listed price
	2 to 3 users	+ 30%
Multi-users License	4 to 10 users	+ 40%

Notes:

- 1) Thaichote data is available in Level-1A, Level-2A, and Pan-Sharpening
- 2) Bundle is a set of PAN and MS collected on the same date and over the same area.
- 3) Cloud cover for Standard Image, Archive Image, and Priority Tasking Image is ≤ 15%
- 4) Haze, fog, snow allowable
- 5) Minimum order size is 1 scene either Panchromatic or Multispectral
- 6) Basic scene size: Panchromatic = 484 km² at nadir, Multispectral = 8,100 km² at nadir
- 7) Based on listed pricing before any discount
- 8) Prices are ex-works and subject to be changed without notice. Product features are given as indication and are subject to be changed without notice.
- 9) Prices listed in this Price List exclude taxes, customs duties, delivery, and insurance fees. The customer will be responsible for the payment of any taxes or customs duties levied on the satellite data.

Delivery

Format	Products are supplied in DIMAP format > image in GeoTiff format > descriptive metadata in XML format
Media	> CD-Rom > DVD > ftp
